

Wu Pin-Yi

Female

Hello!

I am a marketing professional with excellent communication skills, strong initiative, and a focus on efficiency.

Throughout my career, I have specialized in **content SEO layout, community 0 to 1 cold start, video planning, and MarTech tool (Omnichat/LINE) implementation**. I am accustomed to focusing on data and audience pain points. I have successfully raised keywords to the top 5 on the first page of search results and reduced blocking rates and increased interaction engagement through automated scripts.

I possess comprehensive visual and video production skills (including commercial photography, editing, and scripting) and play an active role in communication and collaboration within teams. When facing challenges, I proactively seek solutions and quickly learn new tools. I look forward to bringing my passion for marketing and cross-disciplinary execution capabilities to your company to create positive and tangible impact.
